[SECTION: FAQS & POLICIES]

Customer Question	Official Verified Answer	Category

How do you estimate project costs?	We scope features, integrations, user roles, non-functionals, and timeline, then propose fixed-bid, T&M, or dedicated squad pricing with a written SOW.	Pricing
Do you sign an NDA before discussions?	Yes. Mutual NDAs are executed before reviewing architecture diagrams, codebases, or confidential product roadmaps.	Security & IP
Who owns the intellectual property (IP)?	Clients own 100% of custom source code, designs, and project data upon settlement of agreed milestones, unless open-source components apply under their licenses.	IP Ownership
What post-launch maintenance do you provide?	Every build includes 60 days complimentary warranty for defects introduced by us. Optional SLA retainers cover monitoring, patches, and feature velocity.	Support
Which engagement models do you offer?	Fixed-price projects, time & materials, monthly dedicated teams, and outcome-based retainers for product pods.	Engagement
Do you work with existing internal teams?	Yes. We embed with client engineering via shared repos, CI, and standups, or run as a parallel delivery stream with clear interface contracts.	Delivery
What is your typical discovery timeline?	Paid discovery usually runs 1·2 weeks and produces UX flows, architecture options, backlog, and a budget-confidence estimate.	Discovery
Can you take over a legacy codebase?	Yes. We run a structured audit (tests, deps, infra, security), then propose stabilization vs rewrite recommendations.	Legacy
How do you handle security and compliance?	Secure SDLC practices, dependency scanning, secrets management, and optional SOC2/ISO-aligned controls depending on the engagement.	Security & IP
Do you deploy to our cloud accounts?	Preferred model is deploy into the client·s AWS/GCP/Azure org with IaC (Terraform) and least-privilege access.	Cloud
What communication cadence should we expect?	Weekly demos, shared Slack/Teams channel, written status notes, and a single accountable delivery lead.	Delivery
Do you provide UI/UX design?	Yes · product design is available as a standalone track or bundled with engineering (wireframes, design system, handoff).	Design
How are change requests priced?	Out-of-scope items are estimated in writing and approved before work starts; velocity trackers keep the backlog transparent.	Pricing
Can you help hire or train our team?	We offer enablement workshops, pairing, and hiring scorecards as an optional professional-services add-on.	Enablement

Engagement Models, SOW & Change Control	Delivery	# How We Engage We deliver via fixed-price, time & materials, or dedicated squads. Every engagement starts with a written SOW covering scope, milestones, acceptance criteria, and commercial terms. Change requests are estimated and approved in writing before implementation so budgets stay predictable.
Security, NDA & Intellectual Property	Security & IP	# Security & IP Mutual NDAs precede deep technical discussions. Custom code and designs transfer to the client after milestone payments, excluding third-party/open-source components which keep their licenses. Access is least-privilege; secrets stay in vaults; production access is logged.
Support Warranty & SLA Retainers	Support	# After Go-Live Projects include 60 days warranty for defects attributable to our delivery. Ongoing SLAs can cover uptime monitoring, dependency patches, and a monthly feature capacity. Severity-1 production incidents get priority response under active retainer terms.
